"There is nothing like the Dollamur Flexi-Roll® martial arts surface. They are extremely easy to transport, easy to clean, lightweight and safe. Our Dollamur tournament surface is down and ready to go in less than 20 minutes. Now our students can finally train and practice on the same mats that they compete on. Watch out. Dollamur Martial Arts mats are the future."

## The Dollamur Advantage

The Dollamur Flexi-Roll® Tatami-style mat is the premier American-made Tatami martial arts mat. Tatami style Flexi-Roll® can easily be used at home, in small clubs, large commercial schools, and tournaments. Ultra-light weight, portable convenience, easy setup and take down, and durability make this mat the choice of champions for stand-up and grappling arts.

The Dollamur mat system is highly versatile. Available in 2,5 cm, 3 cm, 4 cm and 5 cm thicknesses, it is a great surface for all forms of martial arts.

The surface does not sink in, allowing you to move, spin and change direction very quickly. Rolls and wall padding can be custom built on our cutting tables, for your school or club for the perfect fit.

### Five-Year Warranty

We stand behind the quality of our product. That's why every Dollamur martial arts mat is backed by our Five-Year Limited warranty - the best in the industry - covering manufacturing defects and faulty materials.

## Flexi-Roll® by Dollamur - Unrivaled Versatility

Our exclusive Flexi-Roll® feature, now standard on all Dollamur martial arts mats, makes setting-up, taking down and transporting your mat easier and faster than ever before.

This revolutionary system allows a single person to roll up a single section in less than thirty seconds and a full-size mat in under five minutes. Flexi-Roll® mats are manufactured

using the same high performance sports foam and durable 813 g/m<sup>2</sup> vinyl surface that we've come to be known for, along with our Five-Year limited warranty.

When rolled, there is less flexing of the foam which means less wear and tear, and the potential for extended product life.

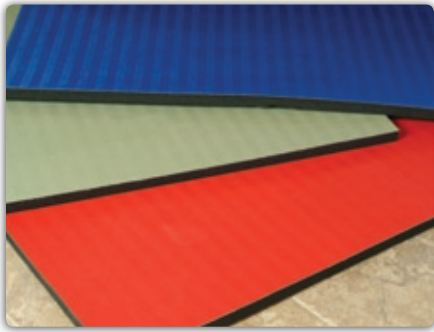

The ultra-light weight of Dollamur martial arts mats, coupled with the Flexi-Roll® feature lets you easily take your mats places they could never go before, easily negotiating through cramped hallways and stairwells.

## High Quality, Durable Materials

### **Foam:** *Exceptional Shock Absorption*

Dollamur martial arts mats are manufactured using the latest in athletic foam technology. This closed-cell, cross linked polyethylene foam provides maximum shock absorption. Our foam never hardens or shrinks, which allows it to retain its performance throughout the life of the mat.

### **Vinyl Surface:** *Durable, Treated with Bio-Pruf™ Antimicrobials*

Our thick, durable 813 g/m<sup>2</sup> non-slip vinyl surface will never crack or peel and is specially treated with Bio-Pruf™ antimicrobials to guard against odor-causing microorganisms and microbial deterioration.

### **Bond:** *Indestructible*

Our sophisticated bonding process fuses the vinyl surface and the foam to one another, for a permanent and indestructible bond.

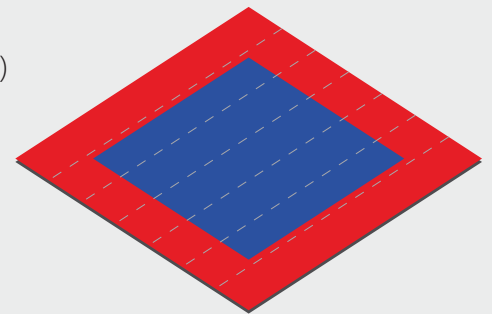

## Martial Arts Mat Sizes

All Dollamur martial arts mats come standard with our Flexi-Roll® feature and are available in 2,5 cm, 3 cm, 4 cm and 5 cm thicknesses. All mat systems include 8 cm mat tape, straps and mat cleaner.

### **Standard Mat Sizes:**

- 14 m x 14 m (8 sections) for International Judo (IJF)
- 12 m x 12 m (7 sections) for Judo Club/National (UEJ) and Taekwondo (WTF)
- 10 m x 10 m (6 sections) for Karate (WKF)

### Warning

WARNING: Any activity involving motion, height, speed, rotation, and/or physical contact creates the possibility of serious injury, including paralysis and even death from landing or falling on the neck, head, back or other parts of the body. Dollamur Mats DO NOT totally eliminate this hazard. Users assume a risk of serious injury in using this product. Users should strictly adhere to the following guidelines at all times.

1. Use this mat ONLY under the supervision of trained and qualified instructors.
2. Know your limitations and follow progressive training practices. Be sure to consult your coach or instructor.
3. Mats are often constructed in sections. These sections may move during the use of the mat. Check for positioning and proper taping prior to use.
4. Mat protection will vary according to room temperature.
