Superior Quality

THREE KEYS TO A BETTER CHEERLEADING & GYMNASTICS MAT

THE FOAM

Two Outstanding Foam Choices

Standard Cross-Linked Polyethylene & High-Performance Tri-Flex®

Dollamur Rollable Carpet Floors are manufactured with closed-cell, cross-linked polyethylene foam, which is renowned for its shock absorption and resiliency. It is proven to substantially outlast non-cross-linked foam because it will not break down under repeated compression.

Our Tri-Flex® EVA floor goes even further, by combining high-performance EVA foam with our exclusive cross-linked polyethylene formula, creating the fastest, liveliest and most dynamic rollable floor in the world.

THE CARPET

Strong 26 oz. Carpet

Our famous needle punch carpet features outstanding durability and non-slip traction. It is the strongest carpet used anywhere in the industry, yet it is soft and comfortable to perform on, with the touch of velour.

The polyolefin fibers (pile, nap) are not stringy and cannot be pulled out by velcro, a problem common to less expensive and lighter-weight carpets.

THE BOND

Permanent, Indestructible

The bond between the carpet and foam is critical. Our sophisticated bonding process fuses the carpet and the foam together for a permanent and virtually indestructible bond.

Foam & Carpet

Standard Cross-Linked Polyethylene Foam The #1 Choice of Competitive Cheerleading Squads in the U.S.

Dollamur Cheerleading and Gymnastics mats are manufactured using our high-performance closed cell, cross-linked polyethylene (Trocellen) foam. It won't break down from repeated bending or compression, outlasting mats made with

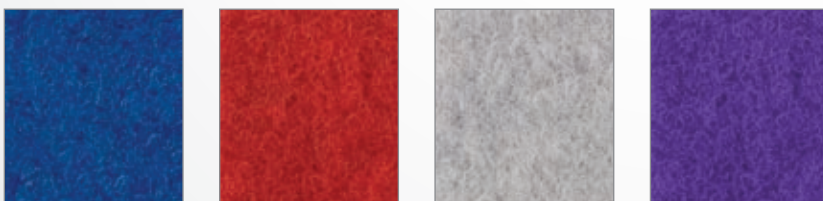

cheaper non-cross-linked foam. It is available in three thicknesses: 5/8", 1-3/8" and 2" to meet the needs of any program. Also available in foam-only rolls at 5/8", 1.25" and 1-7/8" thickness.

High-Performance Tri-Flex® The Ultimate in Speed, Rebound and Shock Absorption

The Tri-Flex® floor is unlike any foam floor surface you have ever used before. Three different foam layers and densities are fused to provide extraordinary speed, rebound and shock absorption. Dollamur's exclusive cross-linked poly-

ethylene formula combined with EVA foam provides height and airtime that can't be touched by any other mat on the market. Available in 1-3/4" and 2-1/4" thickness, as well as foam-only rolls.

Carpet Colors

Foam-Only Rolls

Standard Trocellen Foam

Single-Layer	6' x 42' x 5/8"	805
Two-Layer	6' x 42' x 1.25"	806
Three-Layer	6' x 42' x 1-7/8"	804

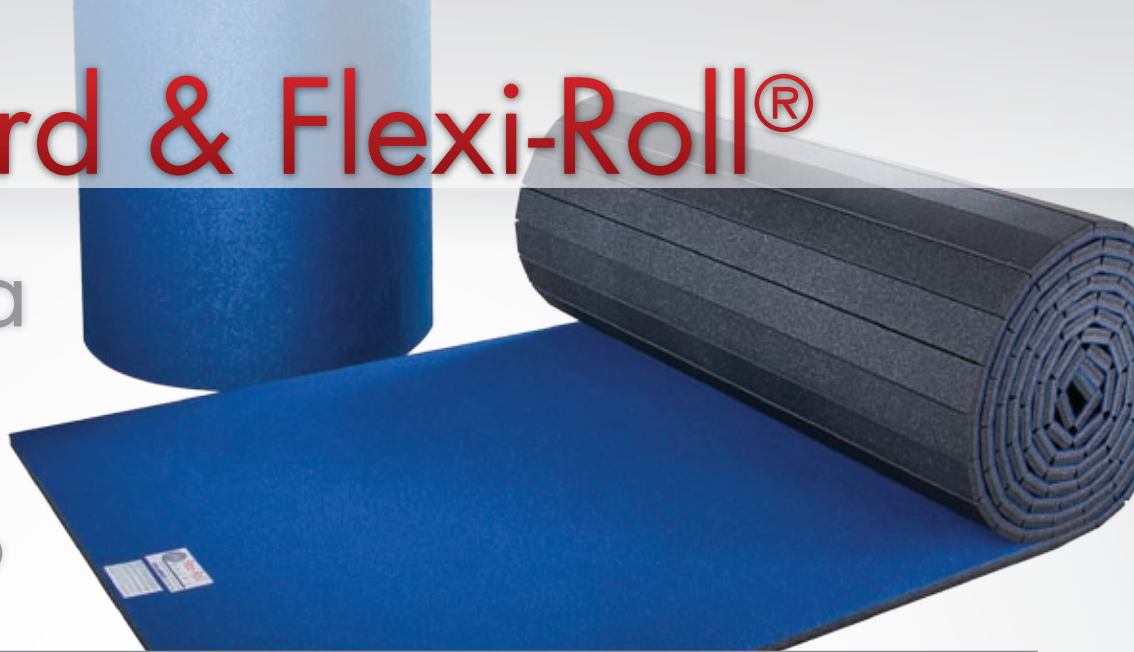

Tri-Flex® EVA Foam

Three-Layer	6' x 42' x 1.5"	806TF
Four-Layer	6' x 42' x 2"	804TF

Scrim backed foam also available.

Standard & Flexi-Roll®

If it's not a Dollamur, it's not a Flexi-Roll®

The Standard Floor System

The basic floor system consists of 7 rolls of flooring, each 6' x 42', forming a 42' square surface. Velcro is included with each complete floor for joining roll and for out-of-bounds markers. Rolls may also be purchased individually to meet your specific program requirements and budget.

The benefits of carpet bonded foam over loose carpet and foam are substantial. Carpet wrinkling, twisting and shifting is eliminated and durability is greatly increased. Bonding makes foam stronger, better dissipates landing impact, and produces a faster responding floor.

Flexi-Roll®: The Ultimate in Versatility

Introducing the quickest, easiest and most versatile mat ever made! A single person can set up or break down a full 42' x 42' Flexi-Roll® mat in just minutes. You get the same excellent performance of our standard rollable mats, chosen for years by top gymnastics and cheerleading programs. Flexi-Roll® gives you the same high-performance sports

foam, the same durable carpet and the same state-of-the-art bonding method. The best just got better!

- No more flipping of rolls
- Quick & Easy setup and storage
- Limited Three Year Warranty
- Rolls stay rolled up on their own
- Carpet protected on inside of rolls

Home Practice Mats

Flexi-Roll® Home Practice Mats

Practice your moves and skills at home on the same mats that you compete on! Dollamur Flexi-Roll® Home Mats are made from the same great materials as our full-size cheerleading and gymnastics floors and are backed by the same Three-Year Limited Warranty. Our Flexi-Roll® feature, standard on all Dollamur Cheerleading and Gymnastics Home Mats, makes set up, take down and storage easier than ever! Just unroll

anywhere, indoors or out, and you have your own practice space. Roll the mat up and it stores on end in less than a 18" square area.

- 4' x 6' and 5' x 10' sizes
- Available in Blue, Red, Gray or Purple
- Includes Flexi-Roll® feature for quick set up & storage
- Multiple mats can be joined together
- Backed by our 3-Year Limited Warranty

Flexi-Roll® Home Mats

4' x 6' x 1.25" Home Mat	46125Flex
4' x 6' x 2" Home Mat	462Flex
5' x 10' x 1.25" Home Mat	510125Flex
5' x 12' x 2" Home Mat	5122Flex

Versatility in Action

Multiple home practice mats can be joined together and arranged in any configuration, allowing you to create the ideal practice area for any situation. The mats are able to be quickly and easily rearranged using the included velcro strips to make areas for tumbling, stunting and more!

Side by side

End to end

Vault Runways

The Dollamur Vault Runway is manufactured with resilient 5/8" cross-linked polyethylene sports foam bonded to our anti-static 26 oz. plush gymnastics carpet for a fast, comfortable surface.

Vault Runway, 25 meters (82') x 3'

- 3/4" Vault Runway 177
- 1-3/8" Training Vault Runway 177125

Proper Use & Care

Please follow these guidelines when using your Dollamur Cheerleading/Gymnastics mats to help ensure maximum product life. A full illustrated guide to Proper Care & Handling is available on our web site at dollamur.com.

Mat Maintenance

The carpet surface of the mat should be cleaned like normal carpet. Vacuum to remove all loose particles. Stains may be treated with a non-abrasive (no bleach) carpet cleaning solution. Spot test a cleaner on a small area before using it to remove a stain. Contact your Dollamur representative for additional cleaning and disinfecting methods.

Temperature Warning

If standard-roll (non Flexi-Roll®) mats are exposed to prolonged cold temperatures (below 60° F, i.e. during shipping) or if they are stored for an extended period of time (3 months or more), they will require an acclimatization period of at least 48 hours before they can be unrolled without causing wrinkles to develop in the carpet. Please refer to our Proper Care & Handling guide (available online at dollamur.com) for complete information.

Flexi-Roll® mats do not require an acclimatization

period and may be rolled out immediately.

All Dollamur mats should be allowed to acclimatize for at least 2 hours prior to cutting, as temperature can affect the size of the mat.

Dollamur mats are approved for outdoor use, however, if placed in direct sunlight the mat surface may become spongy and hot enough to burn. A hot mat will perform differently than a cool mat.

Damage to rolls

Use care when transporting and storing the rolls. The mats should be stored away from potential puncture risks and should be handled cautiously when transporting through doorways and around other obstacles. Mats should be stored upright on a smooth, flat surface.

Additional Notes:

- 1) A two-wheeled dolly is an easy way to transport full-size rolls.
- 2) If rolling a strapped (or already rolled) Flexi-Roll® mat to/from a storage area, turn the mat so that it continues rolling in the direction it was rolled up.
- 3) Standard roll mats must be rolled with the carpet side facing out. Reverse-rolling will cause the carpet surface to crease and wrinkle.

Warning: For your safety

We urge you to carefully read and consider the product safety warning section that follows. It is included to increase your awareness of the precautions that must be enforced in your gymnasium or sports facility to reduce the possibility of injury.

Any activity involving motion or height creates a possibility of serious injury including permanent paralysis and even death, from landing or falling on the neck, head or other parts of the body.

You assume a risk of serious injury in using these mat products. However, this risk can be reduced by strictly following these rules at all times:

1. Use your mat surfaces ONLY under the supervi-

sion of trained and qualified instructors.

2. Cheerleading, gymnastics and other sports activities must only be undertaken when the participants are protected by proper matting. If in doubt concerning proper matting, do not use this product.

3. Know your limitations and the limitations of the mat product. Follow progressive learning techniques and always consult an instructor.

4. Before each use, always check mats for damage or wear including tears and flattening of energy absorbing material. If in doubt, do not use this product.

5. Mats can move during use. Before each use, always check for proper positioning of the product.

DOLLAMUR

THE **DOLLAMUR** ADVANTAGE

- 1.** Superior Quality Foam, Carpet and Bond
- 2.** Available through Dollamur dealers Nationwide for FAST delivery
- 3.** The mat of choice for National Competitions
- 4.** Competitively Priced
- 5.** Exclusive manufacturer of the Flexi-Roll® system - the easiest mat to move and set up!
- 6.** Limited Three-Year Warranty
